Jamie Parr

12-month software or web development placement | Summer 2027

Belfast, Northern Ireland | jamieparr205@gmail.com
jamieparr.dev | github.com/JamieP-205 | linkedin.com/in/jamie-parr-tech

Second-year Computing Technologies student at Ulster University seeking a 12-month software or web development placement from summer 2027. I maintain a radio station website and Python request app used during live shows, working with the presenter on requirements, testing and deployment.

RELEVANT EXPERIENCE

Website Developer and Maintainer

May 2026 to present

Coast Internet Radio, Newry | Unpaid role

- Maintain the station's HTML, CSS and JavaScript website, working with its presenter on requirements, layout and straightforward listening controls.
- Configured Cloudflare Workers to serve the station’s HTTP audio stream and track information over HTTPS so they work on the secure website.
- Tested and deployed a content editor with preview, publish and undo so the presenter can update the site without editing code.
- Configured hosting for a Flask request board with SQLAlchemy and SQLite, connected signed Netlify webhooks and tested the integration. The presenter can mark requests played instead of searching email during shows.
- Test changes, manage hosting and deploy updates, with automated checks in GitHub Actions. Set the brief for the November 2026 redesign and reviewed it with the presenter before launch.

coastinternetradio.com | Website code | Request app code

IT Work Placement

2023/24 academic year

Pet Connection, Newry | One month during SRC studies

- Worked with the company’s online systems for customer orders, stock, shipping and deliveries.

EDUCATION

BSc (Hons) Computing Technologies

2025 to 2029 expected

Ulster University, Belfast | Placement year 2027/28

- Current study: Java programming; Python, Flask and SQLAlchemy; software project management in a five-person Agile team.
- First-year foundations in web development, databases and physical computing. Studied Interactive Computing in 2024/25 before transferring.

Level 3 Extended Diploma in Technology

2022 to 2024

Southern Regional College, Newry | D*DD

IT Specialist: HTML and CSS, Certiport, May 2023.
GCSEs including English and Mathematics, St Mark’s High School, 2022.

TECHNICAL SKILLS

Web and applications: HTML, CSS, JavaScript, Python, Flask, SQLAlchemy and SQLite.

Coursework: C# and Windows Forms; Java classes, constructors, encapsulation and inheritance; SQL and relational databases.

Development tools: Git, GitHub, GitHub Actions, pytest, Netlify and Cloudflare Workers.

SELECTED PROJECTS

EOS delivery quotation system

SRC coursework project | C# and Windows Forms

- C# delivery quotation project based on SRC coursework, covering customer and package details, validation, charges and invoices. The current demo adds invoice export and print preview, with browser and Windows versions on GitHub.

Armagh weather analysis

SRC coursework project | Excel | Big Data and Business Analytics

- Excel analysis of 2,028 monthly weather records from 1853 to 2021, covering temperature, rainfall, sunshine and frost. The repository includes the workbook, data and browser report, with accompanying Python analysis that keeps missing readings separate from real zeros.

Car dealership website

University group coursework | HTML, CSS, JavaScript and jQuery

- Created the Finance and About Us pages for a COM109 group website. Implemented and tested a JavaScript/jQuery finance estimate using price, deposit and repayment term, with input validation. It excludes interest and fees.

ADDITIONAL EMPLOYMENT

Retail Assistant (Weekend Only)

Starts 14 Nov 2026

Primark, Belfast | Part-time, fixed-term

Temporary Production Operative

Jun to Aug 2026

Saica Pack UK, Warrenpoint

- Monitored packaging machinery, checked output quality and handled routine faults safely.

Warehouse Operative

Oct 2021 to Jun 2026

Pet Connection, Newry

- Prepared customer and Amazon orders for dispatch and kept stock organised alongside my studies.

Kitchen Porter

Aug 2024 to Jul 2026

The Garden Room, Warrenpoint

- Supported the kitchen team during busy services and kept work areas clean.

Floor Staff

Jun to Sep 2022

No.7 Duke, Warrenpoint | Customer-facing floor work

ADDITIONAL INFORMATION

Full UK driving licence. Open to relocating within the UK for a placement.
